PROJECTS

OCXD

Inspired by a real app used in OCD treatment centers, OCxD is a web app equipped with various Exposure and Response Therapy based tools, activities, and resources used to aid someone in treating their OCD.

Animal Crossing Weather Bot

Animal Crossing Weather Bot is a website that can recreate the musical experience of the game Animal Crossing. It can play the official music based on your local weather and time, just as the game does.

Dog Gacha

Dog Gacha is a Gacha-style game that allows you to collect meme-style animal units based on differing rates of chance.

Dog Visual Novel Game

Dog Visual Novel Game is a visual novel style game where you choose a new pet dog to spend 30 days with. During that time you can do different activities with your dog, unlock cosmetics and virtual items, and develop your relationship with your new pet, and unlock different scenes based on how you play the game.

The Normalization of Cultural Abuse

College project for English Critical Thinking class – a website designed and built on Wix that questions the line between protected culture and what is considered abuse. Includes cited
